

Shana Bhojwani

Business Analyst | Data, Business Insights & Operations

Paris, France | shana.bjw@gmail.com | +33 6 99 09 25 34 | shana-bjw | portfolio

Business Analyst with 2 years of experience across data, operations and product. At Pix, I worked with local authorities to understand their needs, built SQL dashboards in Metabase, helped structure a repeatable offering and improved recurring processes through automation. I enjoy turning unclear problems into useful insights, practical solutions and smoother workflows. Alongside my professional experience, I build personal projects around Power BI, AI and automation.

PROFESSIONAL EXPERIENCE

GIP Pix - Digital Skills Assessment & Certification Platform 2022 – 2024 | Paris
Business Analyst, Product & Operations

- Gathered and clarified needs through workshops with local authorities, adapting deployment methods to different user profiles, digital skills levels, equipment access, staff availability and operational constraints
- Helped structure and deploy an offer for 35 local authorities by segmenting user profiles, identifying recurring needs and combining usage data with field feedback to create reusable rollout kits
- Built SQL dashboards in Metabase and Excel reports to monitor adoption and operational KPIs, analyse trends and support decisions
- Reduced processing time by 80% through Excel/VBA automation and additional validation checks
- Worked with Product, Data and Support teams to turn operational needs into functional requirements, improvements and pre-release testing.
- Created and centralized guides, FAQs and shared resources that helped reduce recurring support requests by approximately 30%
- Cross-checked dashboards, exports and KPI definitions to investigate data inconsistencies in collaboration with the Data team

TRIANON PATRIMOINES 2021 | Versailles
Wealth Management Assistant

- Analysed investment portfolios, performance, allocation and risk using Quantalys
- Prepared Excel reports and supported compliance and KYC processes
