

Shana BHOJWANI

Business Analyst | Product Analytics & Operations

📍 Paris, France ✉ shana.bjw@gmail.com ☎ +33 6 99 09 25 34 🔗 shana-bjw 🔗 portfolio

Business Analyst with 2 years of experience working across product, data and operations. I enjoy understanding how people use products, making sense of data and helping teams make informed decisions. At Pix, I built SQL dashboards, improved CRM workflows and worked closely with product, data and support teams. I'm particularly interested in building simple solutions that improve products and make people's work easier. Currently building AI and Power BI projects to deepen my skills in product analytics and automation.

PROFESSIONAL EXPERIENCE

GIP PIX - French Public Digital Skills Platform

2022 – 2024 | Paris

Business Analyst - Product & Operations

- Led workshops with local authorities to understand their needs and contributed to a **40% increase in partner engagement** by improving the deployment approach for different user profiles
- Contributed to the **launch of a new offer for 35 local authorities** by analyzing product usage, adoption KPIs and user feedback to identify improvement opportunities
- Built SQL dashboards in Metabase and Excel to understand product usage, track KPIs and support product and operational decisions
- **Reduced recurring processing time by 80%** by improving CRM workflows (Sellsy) and automating internal processes with Excel macros
- Worked with product, data and support teams to translate user feedback into product improvements and functional testing
- Created guides, FAQs and shared documentation (Trello) that **reduced support requests by around 30%**

TRIANON PATRIMOINES

2021 | Versailles

Wealth Management Assistant

- Analyzed client portfolios using **Quantalys** (allocation, risk, performance)
- Supported compliance processes and updated internal documentation
